OFFICIAL JOURNAL OF NEW ORLEANS

AUCTION SALES THIS DAY.

BY STUART HIRON, at 19 Carondelet, at Real Estate and Auctioneers Exchange, a lot, with improvements, corner of Felicity Street and St. George Street, Sixth Ward.

Local Intelligence.

CONTINUED GENERALLY.—For several days past national $5 bank notes, Treasury, of Chicago, have been put in circulation in this city, and, as they are good money, and has not proved been made. These bills are tolerably well executed, especially the back, which is nearly different in the green ink being rather too light. The face of the bill is not so good, though not being some what carelessly, though the red figures and real are quite perfect. Indeed, so nearly is the work done that one or two banks have been swindled, one having cashed a bill for a stranger, and another, last Saturday morning, passed one among interest highly moral people. Several at three last bills were offered at the Academy of Music box office, where they were rejected, since they were received after dark, they looking for better by gaslight than by daylight. The bills are dated, bearing to be the president's in one corner, the ex president being Mr. Hayes, not Buffalo as he remember. The lettering and other work is passably well done on the face, but the back is very poorly done. The paper, however, upon the figures alive is placed by the branches of a tree is poor and can be readily detected, as the engines are too soft and badly defined. Just here comes in the curious part of the business. Some about successful money, and that class yesterday looked happy and wise when listening to the tales of miserable others. Up to last evening the police had not obtained any clue to the parties "who are engaged in this game," but it is likely that if General Bailey, acting chief of police, had received timely warning from the persons who had been the recipients he might have caught some of the rascals. It is not at all improbable that the villains are far from here to-day, perhaps enjoying their stolen money. The signs were to make purchases of small articles, say for $1, which would give a small profit of $4 and the good gotten.

CONTINUED MARKS OF RACE PREJUDICE.—Alphonse Jackson, a colored man, whose appearance indicates that he is or has been a laborer, was trapped yesterday by Officer Bailey, Second Precinct, for vagrancy. Wednesday evening Alphonse called at the house of a respectable family and offered to sell what appeared to be a splendid plain gold finger ring, asking for money. The lady of the house, in the absence of the prize school, and told him to return next day for the balance, and immediately sent word to police headquarters. Yesterday morning the man appeared to the house and was arrested. The lady was not anxious to prosecute, and told him to tell Alphonse has been working his game profitably, as he was quite flush with greenbacks.

MORE THEFTS.—Mr. Hughes, of Carondelet, near Peyton street, reported to the police that his house was robbed of a little further up, at John Sarrazin's store in a branch.

The body of Anthony Buhler was yesterday found floating in the river, the fired in Algiers, and disappeared from the place where it was not known how he came to be drowned.

Nearly every day yesterday were witnessed great misfortunes. He was sitting a horse, at the corner of Jackson and Dauphine streets, when he was struck by a passing omnibus, and was thrown on the track left foot, crushing it badly. Mr. Hiller was sent to the Charity Hospital.

Robert Bailey, work woodyard, was at an hour after midnight. Louis Lawson, a very old man, residing in Algiers, was set at the corner of Dryades and Peyton streets yesterday, engaging for crumbs from each man's tables, when she was violently assaulted by Cobra the Horse, who desired to get her as the crumbs, and kicked her in the head, knocking her down and of a few.

HOW AND TO GET A SHORT DUCK.—General Badger managed to worry down a roast duck, and which indicates that he is not particularly bad off physically. After satisfy hearty he spoiled a small piece of friend and then pulled a good cigar with apparent relish.

RESTORING THE WORKING PEOPLE.—Mr. Hitchcock, manager of the Globe Theatre, assisted by some friends, last night serenaded the Waterworks, Mayor Jonas and Sheldon, at the S. Charles Hotel. A goodly company of gentlemen called on the ladies and gave them a pleasant welcome, and the serenade was good. Mr. Jonas, Mr. Hill and McCarthy, did the honors, and the guests passed delightful hour in the ladies parlor. Jacques brass band collected a large audience on Common street, attracted by the music, and enjoyed it well. It was not present on this occasion can see the entire next Monday night at the Globe Theatre, when an attractive performance will be given.

The White Leagues Double-Barreled Shotgun Compromise—How the Rights of Colored Voters are Cared for—Big Creamery Little Grease in Terrebonne—Its Expose of the Shoogue Ticket.

HOUMA, October 2, 1874.

EDITOR REPUBLICAN:

At the request, of several prominent Republicans, this letter has been delayed in order to be assured of the political standing of a small number of aforetime self-styled leaders in the Republican party, but who now recently have allied themselves with what is termed not here the "Democ-leading double-barreled shotgun compromise." Of the prominent actors of the gentlemen who have left the Republican party for a supposed soft thing in the White League camp, your correspondent does not propose to speak. Jim Conner says that every one of the half dozen recreants to the principles of republicanism had an axe to grind, which was of too uncertain a temper to be laid to rest without a long and tedious grinding.

For instance, rumor has it that a certain parish official had decided in his own mind that the State of Louisiana could not be run properly without his aristocratic name on the State ticket as Auditor. Another wanted his constituents to send him to the State Legislature that he might have every particular which office he held that it paid sufficient to feed, clothe and furnish him with means to run a little game at straw poker. It was very evident that the aspirations of all these worthy gentlemen could not be realized with safety to the Republican party. The candidate for State Auditor did not get a seat in the State convention, notwithstanding the fact that he helped to elect himself as a delegate to that body by a mere paid convention of a dozen brummers. The others gradually faded in pressing the people seat they sought to obtain, and were therefore ready to accept what crumbs they could lead them from the inactive state where they were left by their Republican cronies and allies.

This was the political standing of our claiming backsliders while the White League murdered their Combatta victims, and until the bloody confrontors and Belgian rifle barricades made their billous appearance in our parish. Then, as we have said at this place, it may be remarked, was in full sympathy with the Combatta murderers, and upon the news of the Freedy's victories on Canal street they rushed for the Republican ranks, and were received in a manner most kind. But it is just to state that the majority of planters in this section have nothing to do with the aforesaid White Leagues, and are to-day the most peaceably disposed people in the State. Many of them are Republicans, and, as a rule, are good citizens, and, as such, are the most honest, straightforward and sincere. The your correspondent has meet, and his personal knowledge. Of the White League of Terrebonne, we have nothing to say, for, as we have stated, in the opinion of our correspondent, we are
