- 7) "In 1857 the slightly smaller Colton's General Atlas replaced the Atlas of the World. Most early editions of the General Atlas published from 1857 to 1859 do not have the trademark Colton spiral border, which was removed to allow the maps to fit into a smaller format volume. Their customers must have missed the border because it was reinstated in 1860 and remained in all subsequent publications of the atlas." <https://www.graphicus.com/P/RareMaps/colton>
